

Scholarship amounts

As a **doctoral scholarship holder** you do not receive a salary but a scholarship on which you do not pay taxes, only social security contributions. More information on the social security contributions can be found on our website:

[Social security](#) | [International Staff Office](#) | [University of Antwerp \(uantwerpen.be\)](#)

The scholarship amounts are adjusted to the index every year. The amount depends on your seniority and the number of dependent children (only applicable for single parents). In addition to the monthly scholarship amount, an amount corresponding to the holiday allowance and the end-of-year bonus of an assistant, respectively, is paid in May and November.
