

Workshop

Antwerp Young Minds – Department of Physics

Quantum Computing: *Demystified*

Eric Michiels (IBM Quantum)

Quantum information and computation are becoming more popular in various industries. With this workshop we want to offer you a first hands-on experience in this field. You will obtain the tools necessary you need to know to start your quantum endeavors. Everyone is welcome, physics, mathematics or computer science students/researchers. The EPS Antwerp Young Minds will provide some nice coffee and tea during the workshop. You can drop-in the day itself, but we kindly ask to enroll with the QR code on this poster.

Friday 6th October

9h00 - 12h30

CGB T.148
