

SCAIRY - Sustainable Climate-Change Action via Interdisciplinary Research in YUFE

EXPRESSION OF INTEREST

Please return to liliane.campos@sorbonne-nouvelle.fr and msteinke@essex.ac.uk by 16:00h (CET) on Monday 1 December 2025. Participants must be affiliated to an institution that is a member of the [YUFE alliance](#). Please tick the box and fill in the fields.

☐ I confirm that I am a PhD student / postdoctoral student / early-career researcher with no more than four years' experience in my current academic position.

1. General information

Name:

Institutional affiliation:

Email contact:

Brief summary of higher education (academic degrees and training):

Current employment or studies:

2. Expression of interest

Please tick one or several options:

- ☐ I am interested in participating in workshops on interdisciplinarity in climate action
- ☐ I am interested in presenting my work in an online webinar on interdisciplinarity in climate action
- ☐ I am interested in helping to organise workshops on interdisciplinarity in climate action

3. Summary of current research (maximum 300 words). Please highlight the link with climate and explain any interdisciplinary connections you would like to develop.

4. Topic(s) you would like to propose for the webinars (optional, maximum 500 words)

You can suggest topics for one or several of these options:

- ☐ an individual talk you would like to give:
- ☐ an interdisciplinary panel you would like to participate in:

☐ a workshop you would like to help organise:

☐ other suggestions:

Please bear in mind that all proposed topics should be climate-related. Individual talks do not have to have an interdisciplinary content, but panels should be interdisciplinary and workshops should focus on interdisciplinarity. Examples of topics are: health, marine environments, forests, mountains, farming, climate communication, social and cultural aspects to climate action, research methodologies, etc. We are open to other suggestions.
