Additional information:

- Complete the table with the activities of last year (mention only activities which have not yet been honored).
- Mention the “corresponding” table number for each activity.
- Give sufficient details (title activity, location, date, duration, organisation, list of authors, ...).
- Mention the list of authors with poster defences, publications and presentations + put your name in bold. For poster defences points will only be given when the student is first author.
- Round points with maximum 1 number after the decimal sign.
- Students who perform an important part of their PhD abroad, do not get all points in the category 1.3 (research stay) as the activities take place in the course of the PhD project.
- First years PhD students must not yet fill in a “progress report doctoral study programme”.
