

*Please complete and upload this form in SisA via the tile 'Requests' (New Request > PhD doctoral thesis). Please note: The PhD researcher and supervisor(s) jointly must check that they publicly share no information, data, algorithms, methodology, inventions, or results, considered as confidential information from the Universiteit Antwerpen or external parties, in the thesis. If said information, data, algorithms, methodology, inventions, or results were generated under the terms of contracts (MTA, NDA, grant agreements, research agreements or alike...) the supervisor(s) must check that no contractual rules and obligations are breached by making this thesis public. In any case of doubt, the supervisor(s) will contact their responsible valorisation manager and the legal office to investigate this in detail before the public defence procedure can be continued.*

Name of the PhD researcher:

Title of the PhD thesis:

Degree:

Faculty:

Name of the supervisor(s):

Throughout your doctoral research you:

- 1) collaborated with a company, a knowledge institution or another entity: yes      no
- 2) used non-UAntwerp material (biological or non-biological material): yes      no
- 3) used non-UAntwerp confidential information: yes      no

If you answered "yes" to one of the questions above, please fill out the questions below:

- 1) the above-mentioned collaboration, material and/or information is the subject of a written agreement: yes      no
- 2) this agreement was handled by the UAntwerp Legal Office: yes      no
- 3) you have obtained explicit consent from the institution you collaborated with to publish the data contained in your doctoral thesis: yes      no

The doctoral thesis:

- 1) contains non-UAntwerp confidential information: yes      no
- 2) uses visual material for which no written usage rights have been obtained by the PhD researcher: yes      no
- 3) contains an invention of potentially commercializable research results: yes      no
- 4) contains (elements of) a non-published patent application: yes      no

Considering the above, I believe that the doctoral thesis may only be consulted after signing a confidentiality agreement: yes      no

If "yes", please explain briefly:

I declare that I have answered the questions above to the best of my ability and knowledge.
