

June 2021

ADS courses first semester 2021-2022

Registrations in SisA for ADS courses for the first semester of the academic year 2021-2022 will open on **Tuesday 7 September 2021** (between 9h00 and 11h00). The following months the course offer of next semester will be gradually published on our website.

Important! Before you can register for an ADS-course, you need to (re-)enrol as a PhD student in SisA for the academic year 2021-2022. This is possible as from 16 July 2021.

Students on the waiting list from ADS courses in 2020-2021 do not have priority to enroll for the next academic year.

The Flemish PhD Cup wants you!

Did you obtain your PhD degree in the past two years?
Then the **Flemish PhD Cup** challenges you to convey to the **general public** the insights of the doctoral research you have been working on for years! Not through an academic lecture, but told as a compelling and comprehensible story for non-peers. After an intense mediatraining, you will face the ultimate test: can you explain the core of your PhD in just... three minutes?

Registrations are open now!

Statua Courses

Statua is the core facility for methodology and statistical data analysis. It offers courses and lectures for PhD students and postdoctoral researchers. Currently, registrations are open for the course "**Categorical data analysis using logistic regression**" and a seminar "**Research design in explanatory (causal) research**".

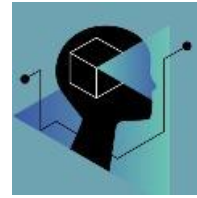

You can find a full course schedule on their website!

PhD Talent Pool Flanders

Career platforms are the best way for employers and job seekers to find each other online. And so, it is with great pride that the 5 Flemish universities announce the launch of the **PhD Talent Pool Flanders**, a niche board that connects PhD degree holders with the business world.

You can join them on **Thursday 24 June** for an online, informative and fun-filled morning in which to engage with recruiters, and learn about how to successfully create an attention-grabbing profile on the PhD Talent Pool Flanders platform.

Baillet Latour Biomedical Award

The **Baillet Latour Biomedical Award** is conceived as an incentive for the career development of young talented scientists. This award, amounting to € 1,000,000 spread over 5 years, is intended to help them pursue or consolidate their innovative and groundbreaking research projects in Belgium. In this edition, the focus is in the domain of **infection and immunity**.

Deadline for submission is June 30, 2021.
