

CONFIDENTIALITY CHECKLIST DOCTORAL THESIS

Please fill in this form and upload it in SisA via the tile 'Requests' (New Request > PhD doctoral thesis).

The PhD researcher and supervisor(s) must jointly verify, in accordance with the applicable legislation, the General PhD Regulations and the applicable contractual obligations, that they do not disclose any information, data, algorithms, methodology, findings or results, considered as commercialisable confidential information of the University of Antwerp or external parties, in the publicly available thesis.

If this information, data, algorithms, methodology, findings or results were generated under contractual conditions (MTA, NDA, grant agreements, research agreements or the like, etc.), the supervisor(s) must check that no contractual agreements and obligations are violated by making this thesis public. In case of doubt, the supervisor(s) will contact their responsible valorisation manager and the Legal Affairs Office to investigate this in detail before the public defence procedure can be continued.

Name PhD researcher:

Title doctoral thesis:

PhD degree title to be obtained:

Faculty:

Name supervisor(s):

- I am of the opinion that the doctoral thesis should be under permanent embargo and may only be consulted after signing a confidentiality agreement approved by the University of Antwerp for the following reason(s):
  - The doctoral thesis includes confidential information, material or visual material from another party outside UAntwerp, whereby a confidentiality agreement (including but not limited to NDA, confidentiality agreement, confidentiality agreement, nondisclosure clause, confidentiality clause in a broader contract) has been concluded with the party in question.
  - The doctoral thesis describes a non-public invention or potentially commercialisable research results of UAntwerp
    - that have not been registered with the Valorisation Office.
    - that have been registered with the Valorisation Office.
- I am of the opinion that the doctoral thesis should not be under permanent embargo because the reasons given above are not applicable.\*

\*For your information: when submitting the digital version of the doctoral thesis to the Library via SisA, the option of a temporary embargo can be chosen. This is not related to this confidentiality checklist.

The undersigned declare that they have evaluated the above statements to the best of their ability and knowledge.
