

Fundamental rights in tax matters

Study afternoon 'How are fundamental rights applied in tax matters?'

Speaker: Prof. Anne Van de Vijver

October 19, 2017 | 13.30 - 17.00 | Ghent

Fundamental rights are increasingly invoked in tax jurisdiction. The right to equality and the right to a fair trial have long been classics. The right to property and the right to private life are also clearly on the rise in tax matters. In this seminar, organized by UGent, the application of a number of fundamental rights is discussed in a number of current tax topics.

Prof. dr. Dr Anne Van de Vijver focuses in her session on the topic of 'State aid'.
