

# Transfer of family owned business

1 and 8 October 2015

Family owned businesses contribute substantively to the economic development of a country. One of the main challenges these family owned businesses will face at a certain point in time, is the transfer to the next generation.

In order to make this transfer successful and to assure the future of the business, open communication, mutual trust, a solid preparation and a financial, tax and legal setting adjusted to the needs of the business and its shareholders, is needed.

This program tackles the civil, corporate and tax aspects of such transfers.

## **Program day 1 - Transfer from the entrepreneur's point of view**

Thursday 1 October 2015 - 13.00-18.00 h
