

Annex 1. How to calculate your American GPA

In this document we give you an example how to convert Belgian/Flemish scores into the American GPA. In stead of Belgian/Flemish please use your own country.

Step 1: Go to the website for the scholar GPA calculator: <https://www.scholaro.com/gpa-calculator/>.

Step 2: Scroll down where you can find the U.S. grade equivalent to points:

Screenshot of the Scholaro GPA Calculator website. The page shows a table with 5 rows and 4 columns, with red 'x' marks in the bottom right corner of each row. Below the table is a 'Number of rows to add: 1' field with an 'ADD' button. There are 'CALCULATE GPA' and 'CLEAR GRADES' buttons. The main content area is titled 'About Scholaro GPA Calculator' and contains the following text:

This international GPA calculator is intended to help you calculate the **United States Grade Point Average (GPA)** based on grades or points from almost any country in the world. The U.S. GPA is calculated on a 4.0 scale.

How is the GPA calculated?

1) First, the grades are converted to the U.S. equivalent for countries other than the U.S.

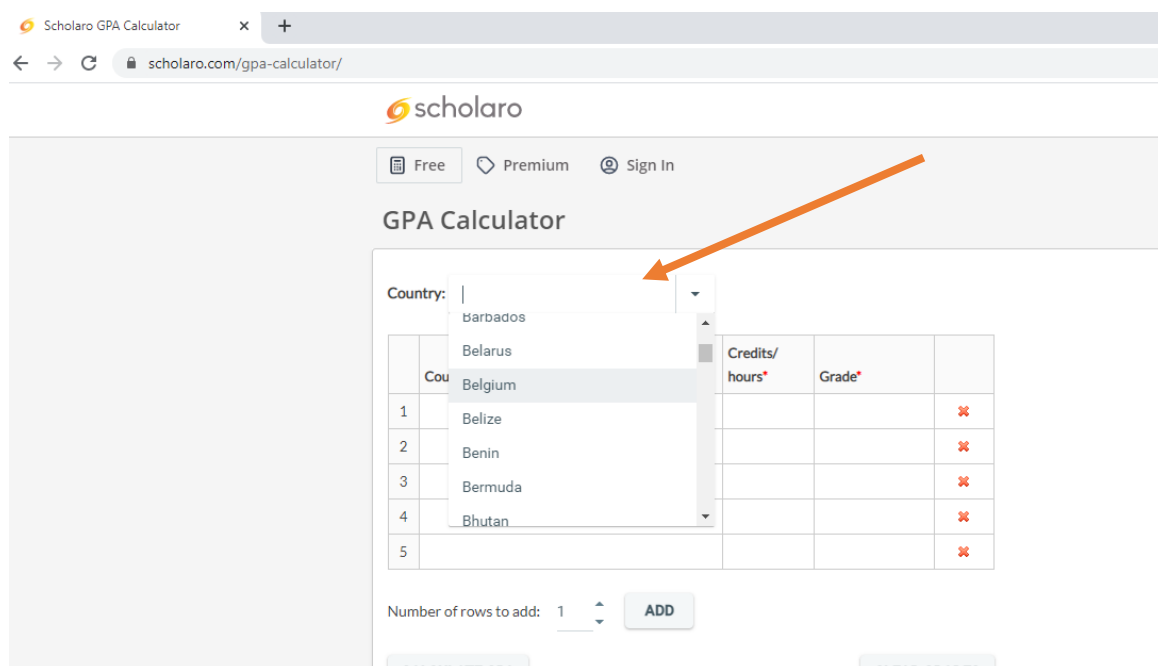

Chinese Grade	U.S. Grade
90	A
85	B
80	B

2) The GPA converter converts each U.S. grade equivalent to points using the following scale:

U.S. Grade	Points	U.S. Grade	Points	U.S. Grade	Points	U.S. Grade	Points	U.S. Grade	Points
A+	4.0	B+	3.3	C+	2.3	D+	1.3	F	0.0
A	4.0	B	3.0	C	2.0	D	1.0	-	
A-	3.7	B-	2.7	C-	1.7	D-	0.7	-	

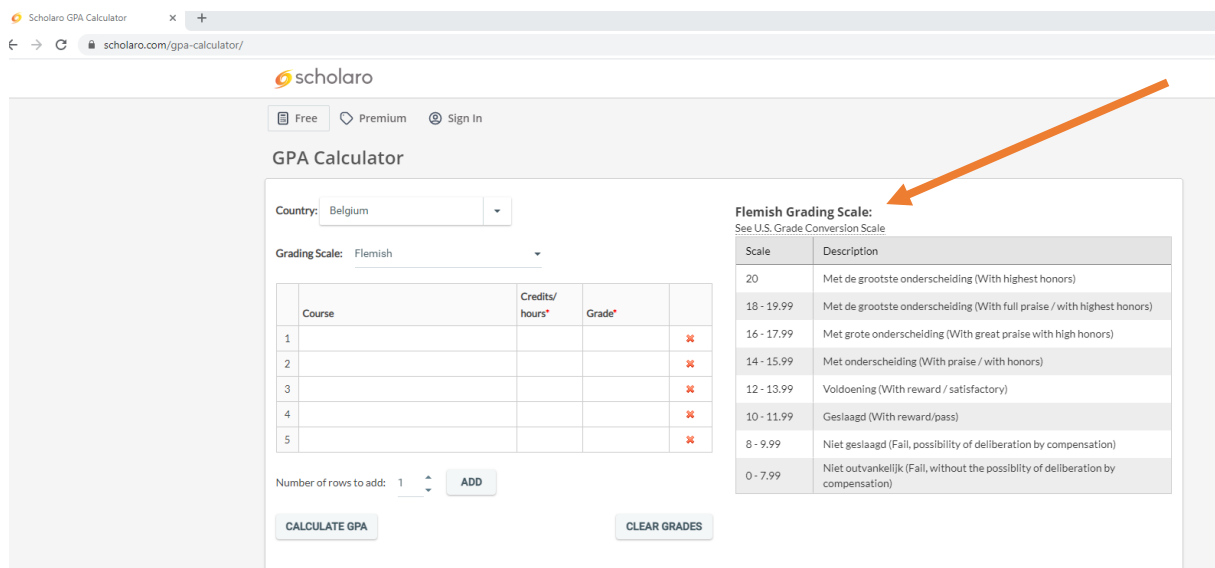

An orange arrow points from the right side of the page towards the 'How is the GPA calculated?' section.

Step 3: Go back to the top of the webpage and type or select your country:
