

 Universiteit Antwerpen	PROCEDURE PROC/ADOND/001.1	
Name:	Admission holders of a diploma from an institution outside the Flemish Community. Excluding doctoral students	Name (delegated) person responsible:
Partial procedure of:	PROC/ADOND/001	Eric Mathieu
Owner:	ADOND	
Name author:	Eric Mathieu	
Identification procedure:	PROC/ADOND/001.1	Name head of department:
Date of implementation:	01-01-2022	Luc Van De Poele
Revision number	2022.01	
Date revision	01-11-2021	
Enddate validity of this version:		Mail group: Intramail

0. Introduction: legislative context, international agreements and regulations

In treating admission requests, our university is bound by external and internal regulations.

These regulations can be found in:

- The Codex Higher Education of 13 October 2013
- Treaty n° 165 of the European Council and the UNESCO concerning the recognition of higher education degrees in the European region from 11 April 1997 (Lisbon convention)
- Treaty between the Flemish Community of Belgium and the Kingdom of the Netherlands regarding the accreditation of programmes in Flemish and Dutch higher education of 03/09/2003 (art. 11) and Decision of the Flemish Government regarding the determination of academic equivalence of Dutch degrees of higher education of 17/09/2010
- The Benelux Decision of 18 May 2015
- Decision of the Flemish Community regarding the APS-certificate (agreement signed on 18 December 2006)
- Equivalence diploma of medical doctor (Naric-regulations)
- Law of 15 December 1980 concerning access to the territory, the residence, the settlement and the removal of foreigners.
- The Education and Examination Regulation of the Universiteit Antwerpen of the academic year concerned

1. Admission requirements

1.1 Predetermined (level) equivalence of foreign diplomas

The diploma requirements mentioned in 1.2.a (a to d), 1.3.a and 1.4.a always concern diplomas issued by recognized education institutions in Flanders. The diplomas described below are level-equivalent or fully equivalent with these diplomas based on the legislation concerned or the procedure followed.

1. After an investigation, the Department of Education (Flemish Community/NARIC) can grant individual foreign diplomas (level) equivalence with the corresponding diplomas issued by recognized higher education institutions in Flanders. The decisions by NARIC are binding on third parties and need to be followed.
2. Diplomas issued by recognized education institutions in the French and German Community of Belgium are recognized automatically as equivalent with the corresponding diploma issued by recognized education institutions in Flanders.
3. The degrees of bachelor, master and doctor, issued by recognized education institutions in the Netherlands and Luxemburg are recognized to have an equivalent level as the corresponding degrees of resp. bachelor, master and doctor issued by recognized education institutions in Flanders.

Concretely, this means that the procedures that exist for diplomas issued by recognized education institutions in Flanders also apply to these (foreign) diplomas:

- If the admission requirements of a programme state that a specific diploma gives direct access or that all diplomas of a certain level (bachelor, master...) issued by a recognized education institution in Flanders give access to a programme, then direct enrolment for (level-)equivalent diplomas is also possible.
- If the admission requirements of a programme state that for diplomas of a certain level and/or with a specification issued by a recognized education institution in Flanders, an additional permission is required, then this also applies to (level-)equivalent diplomas. The same as for diplomas issued by recognized education institutions in Flanders, this permission has to be requested directly from the faculty in accordance with the faculty's procedure.
- If the admission requirements of a master's or advanced master's programme states that a preparatory programme is required for certain degrees and/or specifications issued by recognized education institutions in Flanders, this also applies to (level) equivalent diplomas.

The recognition of (level-)equivalence is related to the general admission requirements for a programme but does not entail an exemption of possible language or other specific requirements.

1.2. Admission to a bachelor's programme

1.2.a. General diploma requirements

Persons are admitted to a bachelor's programme when they have :

- a) a diploma of secondary education
- b) a diploma of higher education
- c) a diploma of higher education for social promotion (except the certificate of pedagogical ability)
- d) a diploma or certificate issued in the framework of higher professional education
- e) a diploma or certificate (obtained abroad) which is recognized as equivalent with the diplomas in the categories mentioned above and this by law, decree, European directive or another international agreement.

1.2.b. Specific admission requirements

1. For an enrolment in the programme of medicine an additional requirement is to have passed the entrance exam of the Flemish Community.
2. For an enrolment in the Bachelor of Veterinary Medicine and additional requirement is to have participated in the "ijkingstoets" veterinary medicine.
3. For an enrolment in the Bachelor of Industrial Sciences and additional requirement is to have participated in the "ijkingstoets" industrial sciences.
4. A diploma obtained in a country which is not part of the European Union and which is not recognized as equivalent based on 1.2.a.e. can be accepted if this document gives access to a bachelor's programme in the country where it was issued and if the diplomas and certificates concerned are authenticated. The foreign bachelor's programme should be comparable with a Flemish bachelor's programme. In recognizing the degree, study results and the obtained degree of distinction can be taken into account. The criteria are included in table 3.2.

1.3. Admission to an initial master's programme

1.3.a. General diploma requirements

The general admission requirement for a master's programme is holding an academic bachelor's diploma. For each master's programme, the institution marks at least one bachelor's programme as general admission requirement. The Universiteit Antwerpen defines the specific admission requirements for its master's programmes. These are approved by the Board of Governors.

1.3.b. Specific admission requirements

The institution's management can exempt persons holding a higher education diploma issued outside the Flemish Community from the above-mentioned general diploma requirements for enrolment in a master's programme, insofar as that diploma is considered equivalent with the necessary degree. When considering this study results and the obtained degree of distinction can be taken into account. The criteria for this need to be stipulated by the faculty beforehand. If the degree is not considered equivalent, the institution's management can make the admission dependent on a successful completion of a specifically designed preparatory programme. For practical reasons, the preparatory programme can be filled by an existing bridging programme. The student will then be enrolled in the bridging programme concerned. In such cases, the bridging programme passes as the preparatory programme.

1.4. Admission to an advanced master's programme

1.4.a. General diploma requirements

The general admission requirement for an advanced master's programme is holding an academic master's diploma. For each advanced master's programme, the institution marks at least one master's programme as general admission requirement. The enrolment can be made dependent on an inquiry into the ability of the student. The Universiteit Antwerpen defines the specific admission requirements for its advanced master's programmes. These are approved by the Board of Governors.

1.4.b. Specific admission requirements

The institution's management can exempt persons holding a higher education diploma issued outside the Flemish Community from the above-mentioned general diploma requirements for enrolment in an advanced master's programme, insofar as that diploma is considered equivalent with the necessary degree. When considering this study results and the obtained degree of distinction can be taken into account. The criteria for this need to be stipulated by the faculty beforehand. If the degree is not considered equivalent, the institution's management can make the admission dependent on a successful completion of a specifically designed preparatory programme.

1.5. Language conditions

1.5.a Dutch

1. For a first enrolment in an initial academic programme and/or courses having Dutch as language of instruction, a proof of compliance with the language requirements for Dutch is necessary.
2. This proof can be given through one of the following situations:
 - a. a written certificate that the student has successfully followed one year in a Dutch programme in secondary education
 - b. a written certificate that the student has successfully obtained 60 ECTS-credits in courses having Dutch as language of instruction in programmes in higher education
 - c. a written certificate that the student passed a test on sufficient knowledge of Dutch organised by a recognized organisation.
3. Only the following language tests (minimum level B2) are recognized in case of 2c:
 - a. Inter-university Language Test Dutch as a Foreign Language (ITNA; <http://www.itna.be>)
 - b. the Certificate of Dutch as a Foreign Language (<http://www.cnvt.org>)
 - c. the diploma Dutch State Exam NT Programme II.
(https://www.hetcvte.nl/item/staatsexamens_nederlands_als)

If the required language level differs from B2 for a programme this is indicated in the study guide on the website.

On first enrolment at the University of Antwerp, the above exam certificates may not be older than two years.

4. Each faculty can lay down in its faculty regulations that a higher level of Dutch is required for a certain programme. These requirements have to be communicated prior to 01 June, preceding the academic year, to the Education administration.
5. For the advanced Master programmes taught in Dutch, for which there is no higher level than B2 required, the competent body (steering committee, educational commission) may grant a substantiated exemption from the language test if knowledge of the Dutch language can clearly be demonstrated. In order to obtain such an exemption, the prospective student must add a personally written motivation for this exemption in Dutch (minimum 500 words) to his application file. The competent authority can always invite the prospective student for an interview. The competent authority shall decide on the exemption and provide a motivation when evaluating the application file.
6. Students following a programme with Dutch as language of instruction according to the HER, which consists entirely of programme components resorting under article 7 of the Code of Conduct Regarding the Language of Instruction can be exempt from the above-mentioned proof concerning fulfilment of the language requirements. The faculty concerned is responsible for providing a motivated written permission for enrolment after the prospective student has demonstrated that he/she possesses adequate linguistic competency.
7. Prospective students who have studied at an International School (IS) or a European School (ES) and have taken a course Dutch as Language A (IS) or Language 1 (ES) and have successfully taken the exam to obtain the degree of European Baccalaureat issued by the 'Schola Europaeae' or the degree of International Baccalaureat issued by the 'Office du Baccalauréat International' can be exempt from the language tests (level B2) under point 3 provided the prospective student can present the required authentic certificates.

1.5.b. Other languages

For programmes and programme components instructed in other languages than Dutch, the competent authority for the recognition of the qualification shall decide how the prospective student should demonstrate adequate linguistic competency.

In case of English, the following language tests can be considered:

- a. Interuniversity Test of Academic English for Students (ITACE; <http://www.itace.be/students/about.html>)
- b. Test of English as a Foreign Language (TOEFL; <http://www.ets.org/toefl>)
- c. International English Language Testing System (IELTS; <http://www.ielts.org>)

The required result is determined by the competent body.

Students holding a degree issued by a recognized educational institution in Flanders, are exempt from the English language test. Based on the Benelux Decision about mutual degree recognition of 18 May 2015, this exemption of the English language test also applies to holders of degrees issued by recognized educational institutions in Belgium, the Netherlands and Luxemburg.

1.6. Additional admission requirements

1.6.a. Prospective students with a Chinese diploma: APS-certificate required

Since the academic year 2007-2008 all Chinese students have to provide an APS-certificate (Akademische Prüfstelle) before they can be admitted for enrolment. This is based on a decision by the Flemish Community. This certificate is also required to apply for a student-visa en determines to which level and to which study area the Chinese prospective students can be admitted.

Exemptions from the APS-certificate:

- Chinese students with degrees from Macao, Hongkong and Taiwan
- Chinese students who have successfully pursued studies or have obtained credits outside of China
- Chinese students who want to enroll on the basis of a non-Chinese degree
- Chinese students who are exchanged in the framework of a bilateral agreements between a Chinese and a Flemish Higer Education Institution
- Chinese students who are exchanged in the framework of an official exchange programme such as Erasmus Mundus, ASEM-Duo, ...
- Chinese students who hold a China Scholarship Council grant
- Refugees from the P.R. of China

1.6.b. Visa requirement: enrolment as full time, regular student is required

One of the conditions to obtain a student visa is an enrolment in a full time programme as a regular student (= diploma contract for a study programme of minimum 60 credits).

1.6.c. Diploma year students: proof of enrolment in diploma year and presentation of proof of obtained diploma before enrolment are required

Prospective students who have not yet obtained the required diploma at the time of application need to provide in their application file an original official proof (in English, French, German or Dutch) from the education institution concerned confirming the enrolment in a diploma year. Moreover, before actual enrolment a proof of the obtained diploma has to be submitted to the registrar's office. This can be a legalized original certificate or a digital confirmation sent directly from the issuing institution. In this situation, a possible letter of acceptance will mention this condition explicitly.

The faculty always reserves the right to formulate in its advice conditions which have to be met before a possible letter of acceptance can be sent (e.g. diploma has to be obtained with a minimum degree of distinction).

In any case a copy of the diploma, if applicable legalised and translated, must be present in the student's enrolment file before the diploma can be obtained at the Universiteit Antwerpen.

1.6.d. Prospective students without documents related to their study career.

Prospective students who have no or incomplete documents to demonstrate that they fulfill the access requirements should take one of the following additional steps, depending on the level at which they want to enter:

- Bachelor: procedure variant admission of the AUHA
- Master: Investigation of a 'background paper' in combination with a capability investigation by the faculty. This 'background paper' is based on the model of the European Diploma Supplement (annex 3)

The result of the investigation is added to the electronic application file.

2. Procedure 'Admission request'

2.1 General principal

Depending on the programme applied for and the prior (level) equivalence of the applicant's qualification, three situations are distinguished in the admission procedure for international students:

1. The prospective international student wishes to start in a bachelor's, master's or advanced master's programme and has a (level) equivalent qualification in accordance with point 1.1 or, in case of a bachelor's programme, has one of the priorly recognized qualifications as in appendix 1: a prior application file is not applicable and the prospective student can directly follow the enrolment procedure.
2. The prospective international student wishes to start in a bachelor's programme and does not have a (level) equivalent qualification in accordance with point 1.1 and does not have one of the priorly recognized qualifications as in appendix 1: an application file is always applicable. The authentication of the documents as well as the recognition of the qualification is executed by the registrar's office based on point 1.2.
3. The prospective international student wishes to start in a master's or an advanced master's programme and does not have a (level) equivalent qualification in accordance with point 1.1: an application file is always applicable. The authentication of the documents is done by the registrar's office. The recognition of the qualification is executed by the appointed body in the faculty based on point 1.3 and point 1.4.

Students who comply with the general diploma requirements (1.2.a , 1.3.a or 1.4.a), the specific language requirements (1.5.a) and who are a national of a EEA-member state, are directly admitted to the programme without a further file. All other students, including those wishing to enrol in an English programme, submit an admission request.

2.2. Procedure

2.2.a. Information and request

- 1) Interested international students are initially referred to internationalstudents@uantwerpen.be for (general) information regarding the programmes offered (in Flanders), diploma and language requirements, education in Flanders, the application procedure.... If necessary the students will consequently be referred to the registrar's office (specific questions regarding application procedure, files in progress), Service for study advice and student counselling (specific questions regarding study advice) or to the faculty (specific questions regarding study programme).
- 2) The actual investigation on the basis of which an acceptance is sent, is done based on a digital application file in Mobility Online (MO), complemented by the necessary, if applicable legalized, certificates and documents as stated in the instructions.
- 3) For the situations related to them (see 2.1.3) the faculties provide the prospective international students with a written, non-binding recommendation with regard to the recognition of the qualification, the admission and or/ the study programme. The registrar's office assists the faculties in the investigation of the level of the qualification. The positive recommendation is registered in the electronic application file. The stipulations with regard to giving the advice (a.o. deadlines and turnaround times) are laid down in faculty directives. The faculties appoint one contact person. This person is in charge of the communication with the registrar's office.
- 4) A recommendation can also be a part of the investigation of application files that are treated by the registrar's office in accordance with 2.1.2.

2.2.b. Deadline submission of admission request

- 1) Complete application files have to be received by the registrar's office by 31 May (non EEA nationalities)/15 June (EEA nationals and Belgian residence permits of indefinite duration) before the academic year for which the application is meant. If a recommendation is applicable, one has to take this date into account so that the applicant has enough time to complete the electronic application with documents based on which the authenticity can be checked.
- 2) The registrar decides on the admissibility of complete application files that are received by the registrar's office after the deadline after consulting the faculty (if applicable). In this situation the turnaround times as stipulated in 2.2.c are not applicable.

2.2.c. Turnaround times and feedback

- 1) The aim is to give the students a decision within 20 working days (4 weeks) after submission of the complete application file to the registrar's office (see 2.2.b.1) so as to make it possible for the student to enroll before the start of the academic year. This term can only be maintained in case of a timely (i.e. before the deadlines) receipt of a complete file.
- 2) After the evaluation of the authenticity of the documents and of the recognition of the qualification, the registrar's office sends an electronic admission or refusal tot the prospective international student within 8 working days. If required, a paper copy can be sent by post at the cost of the applicant. Decisions are sent directly to the applicant. Based on a power of attorney given by the applicant the decision can be communicated to a third party.
The admission consists of a letter of acceptance and an accompanying e-mail. The certificate proves to the bodies concerned (embassy, registrar's office...) that the admission requirements for the programme concerned are met and that it is possible to enroll at the Universiteit Antwerpen upon arrival in Belgium. The

certificate can also mention the preparatory programme that has to be followed additionally. In the case of 1.5 and/or 1.6.c the certificate will mention this additional condition. The accompanying e-mail gives information to the prospective student about the enrolment procedure after arrival in Belgium. The admission is only valid for one academic year. Both admission and refusal mention the internal appeals' procedure (see 2.2.e.)

2.2.d. Treatment of the application file

The workflow in MO consists of the following steps:

- 1) Registration of personal details of the prospective students and submission of the application
- 2) Upload of the required documents
- 3) Check if the file is complete according to the instructions
- 4) Request of missing documents if the deadline has not been reached. In case of a missing language certificate the student is referred to Linguapolis in the workflow.
- 5) Recommendation with regard to the admission to the chosen programme
- 6) In case of a positive recommendation, request to send the authentic documents or digital sources that can be used for authenticity checks
- 7) Authenticity check of the documents (a.o. legalizations and/or verifications of original copies and translations) and check the recognition of the qualification.
- 8) Based on the authenticity check and the check on the recognition of the qualification an admission or a refusal is drafted.

2.2.e. Contesting the decision concerning a request

A prospective international student who feels that a negative decision with regard to his/her admission request is tainted by a violation of his or her rights may, with or without assistance from the faculty ombudsperson, submit a request in writing for a review of that decision by the body appointed by the faculty to take it or by the registrar's office and this in accordance with the procedure of internal appeal as described in article 21.4 of the EER.

2.2.f. Enrolment upon arrival in Belgium

The international student can be enrolled during the enrolment period based on the letter of acceptance after arrival in Belgium by following the enrolment procedure. If conditions were set these have to be fulfilled upon enrolment. The student pass and certificates of study (a.o. for the immigration office) are provided by the registrar's office after payment of the study fees.

Students without a letter of acceptance of the registrar's office or who have not fulfilled the conditions in that letter cannot enroll.

Foreign students who are not a national of an EEA member state and who have a student visa need to respect the stipulations of the federal law regarding entry to the territory, the residence, the settlement and the removal of foreigners in order to obtain a residence permit as a full time student.

2.2.g. Reduction of the study programme and/or termination of studies

Foreigners who are a national of a EEA-member state (or persons treated as such) follow the standard procedure concerning changes of enrolment and reduction of the study programme.

For foreigners who are not a national of a EEA member state holding a student visa, termination of studies is only possible if they can present a proof of termination of residence from the community to the registrar's office. The refund of study fees is based on the effectively taken credits after application of the regulations regarding changes in study programmes.

For foreigners who are not a national of a EEA member state it is only possible to reduce the study programme to less than 60 credits in accordance with the stipulations of the federal law regarding entry to the territory, the residence, the settlement and the removal of foreigners.

3. Appendices

3.1. General equivalent foreign diplomas with a diploma of secondary education by European Convention n° 15 of 11 December 1953

The non-limitative list gives an overview of foreign diplomas of secondary education that give access to a bachelor's programme according to 1.2.a.e

Country	Degree	Additional requirements for access to university
Bulgaria	Diploma za Sredno Obrazovanie (academic stream)	
Cyprus	Apolytirion + Pancyprian exams	
Denmark	<ul style="list-style-type: none"> • Studentereksamen • Højere Forberedelseksamen • Højere Handelseksamen • Højere Teknisk Eksamen

3.2. Minimal requirements for access to enrolment in a Bachelor's programmes on the basis of secondary education degrees of non-EER countries

Bases on precedents and information from the ENIC-NARIC network and other foreign universities, this list gives an overview of the minimal requirements that have to be met for a foreign non-EER secondary education degree to give access to a Bachelor's programme at the Universiteit Antwerpen. Going through the application procedure remains a requirement. This list can always be extended and modified in accordance with the current situation in the country concerned.

Country	Secondary education degree	Additional requirements for access to university
Afghanistan	12 Grade Graduation certificate	Certificate general university entrance exam
Albania	Diplomë e Maturës Shtetërore	Certificate entrance exam institution

Switzerland	<ul style="list-style-type: none"> • Gymnasiale Maturität • Maturité gymnasiale • Maturità liceale 	/

3.3 Background paper

Information regarding the obtained qualification for which the authenticated documents cannot be presented.

The purpose of this form is to collect sufficient data to evaluate the academic qualifications (diplomas, degrees, certificates etc.) of an applicant in the absence of the original qualifications. It should provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual.

This form is part of the procedure to obtain exceptional admission to academic master programmes in cases where the original qualification(s) cannot be obtained by any means available. The completion of this form is followed by a personal interview with the relevant admission board. The admission board may require the applicant to take one or more examinations. A positive outcome of the evaluation replaces the step in the admission procedure where the qualification is required.

1 INFORMATION IDENTIFYING THE HOLDER OF THE QUALIFICATION

- 1.1 Family name(s):
- 1.2 Given name(s):
- 1.3 Date of birth (day/month/year):

2 INFORMATION IDENTIFYING THE QUALIFICATION

- 2.1 Name of qualification (in original language and, if applicable, translated into English):
- 2.2 Main field(s) of study for the qualification:
- 2.3 Name of awarding institution (in original language and, if applicable, translated into English):
- 2.4 Language(s) of instruction/examination:

3 INFORMATION ON THE LEVEL OF THE QUALIFICATION

- 3.1 Level of qualification:
- 3.2 Official length of programme
 - 3.2.1 Number of semesters:
 - 3.2.2 Number of weeks per semester
 - 3.2.3. Number of credits (if applicable)
- 3.3 Access requirements(s):

4 INFORMATION ON THE CONTENTS AND RESULTS GAINED

- 4.1 Mode of study:
- 4.2 Learning outcomes:
- 4.3 Programme details (e.g. modules or units studied), and the individual grades/credits obtained:
- 4.4 Description of the 5 most important courses in your programme (include why these were the most important courses and what you learned).
- 4.5 Grading scheme:

5 INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

6 ADDITIONAL INFORMATION

- 6.1 Study period: month/year of start and month/year of graduation
 - 6.1.2: Did you complete the programme within the normal time (Y/N)?
If No, please explain any delay or interruption of study
- 6.2 Does your degree give access to further studies and if so, to which level of study?

I hereby declare that the information provided is true and correct. I also understand that any wilful dishonesty may lead to the refusal of this application.

I hereby consent to the University of Antwerp to contact the institution(s) written above or in my curriculum vitae in order to verify my educational, professional and/or academic career. Such institution(s) may release to the University of Antwerp any information concerning my attendance at and/or graduation from the institution(s). I hereby release the institution(s) from any liability and responsibility for loss that may result from the verification.
