# ACE Academic English kick-off workshop descriptions

## WRITE

### **Logical structure, strong impact**

You'll see how to organise your ideas and structure them in your paper so the reader can easily follow.

### **Academic style made easy**

You'll discover the language that gives Academic English writing its style. Which vocabulary, structures and features should you use?

### **Fewer mistakes, greater impact**

Ever get the feeling that your grammar and vocabulary aren't what they should be? You'll learn about common language problems in Academic English writing.

### **Write smarter with AI**

You'll learn how to use AI and online language tools effectively and responsibly to lift the level of your Academic English writing.

## READ

### **Academic reading made easier**

You'll learn how to read an academic text in an effective way to get from it what you want to get from it, from the main idea to understanding nuances.

## LISTEN

### **Hear it, follow it, learn it: listening to lectures**

You'll find out how to get the most out of your university lectures. This way you'll increase your expertise in your field of study and save time preparing for your exams.
