

Junior Process Safety Engineer

Local Unit & Position Description

Our Safety and Risk Management Advisory Team in Benelux is assisting clients in hazard identification and risk assessment studies, from qualitative studies (HAZOP, SWIFT, ...) to consequence modelling and full detailed quantitative risk assessments. Setting up and improving the safety management system of our clients is part of the work as well as analyzing incidents towards the root causes in the management system. We support our industrial customers to create safer and greener facilities.

Job content includes, but is not limited to:

- Participate in different types of projects and take responsibility for subprojects from the Risk Management Advisory group
- Project-related client contact
- Contribute to tender processes and proposal preparation for RMA services
- Building a network within DNV, both on the national level, with the target to perform cross learnings throughout units, and on an international level, to cross work with specialists.

Position Qualifications

- University degree (Master degree or similar) in a relevant engineering discipline (Chemical, Process, HSE or Mechanical)
- Fluency in Dutch and English, oral and in writing and including technical terms, French is a plus
- High client and quality focus
- Excellent analytical capabilities
- Strong logical mindset and problem-solving attitude
- Engaged work attitude
- Good communication skills
- High commitment to the purpose, vision and values of DNV.

We offer:

- Permanent contract with competitive salary and annual profit share plan
- On top of legal 20 vacation days: 9 additional DNV vacation days + 1 extra day per 5 years of service
- International projects participation
- Lunch vouchers / Sport & culture vouchers / literature budget
- Net expense allowance / smartphone / laptop
- Group insurances (pension plan, life insurance, disability insurance, medical insurance)
- A healthy work life balance
- New office with state of the art ergonomics
- Telework option
- Plenty professional and personal development opportunities in an international environment.

Company & Business Area Description

DNV is the independent expert in assurance and risk management, operating in more than 100 countries. Through our broad experience and deep expertise we advance safety and sustainable performance, set industry benchmarks, and inspire and invent solutions.

We provide assurance to the entire energy value chain through our advisory, monitoring, verification, and certification services. As the world's leading resource of independent energy experts and technical advisors, we help industries and governments to navigate the many complex, interrelated transitions taking place globally and regionally, in the energy industry. We are committed to realizing the goals of the Paris Agreement, and support all stakeholders to transition faster to a deeply decarbonized energy system.

Equal Opportunity Statement

DNV is an Equal Opportunity Employer and gives consideration for employment to qualified applicants without regard to gender, religion, race, national or ethnic origin, cultural background, social group, disability, sexual orientation, gender identity, marital status, age or political opinion. Diversity is fundamental to our culture and we invite you to be part of this diversity!

If you wish to contribute to making a safer energy transition, do not hesitate to apply!
