

THE CLIMATE, MIGRATION & HEALTH NEXUS: MECHANISMS OF MITIGATION, ADAPTATION & LOSS AND DAMAGE

SEPTEMBER 18 – 22, 2023

REGISTER HERE: <https://shorturl.at/behW9>

SEASONAL SCHOOL

WHAT? A **transdisciplinary** course on the **climate-migration-health nexus**. Topics cover understanding the nexus linkages and mechanisms, exploring innovative solutions, and examining governance factors and implications

FOR WHOM? For **junior and senior doctoral researchers** who are interested in gaining a more holistic understanding of the broad nexus

BY WHOM? International experts, both academics and practitioners, affiliated to the International Thematic Network **CliMigHealth** and beyond

WHERE? Faculty of Economics and Business Administration, **Ghent University**

WHY? Seize the opportunity to enhance your **critical thinking and expertise** on this highly relevant topic for our society and future world. **Interact and network** with fellow doctoral researchers, CliMigHealth network partners, and partnering universities' in-house experts.

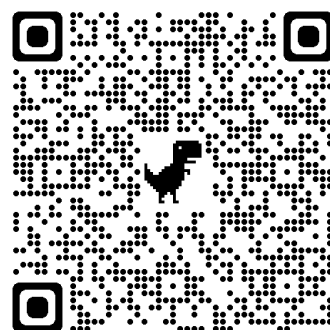

GHENT UNIVERSITY HOSTS THE FIRST SEASONAL SCHOOL ORGANISED BY CLIMIGHEALTH

In collaboration with University of Antwerp, Vrije Universiteit Brussel and UNU-CRIS

Tuition fee: **350 EUR**
* Free for Doctoral School members

PUBLIC OUTREACH EVENT WEDNESDAY 20 SEPTEMBER 16:00-18:00 CET
