

The following papers with fake content are falsely attributed to UAntwerp by using the name of a non-existing researcher or existing person that was never affiliated to UAntwerp:

2025

Moussa L, Farouk D. Evaluating the Impact of a Hypothetical Termination of Resuscitation Protocol on Out-of-Hospital Cardiac Arrest Outcomes and Health System Utilization: A Markov Model Approach. *J Integr Nurs Palliat Care*. 2025;6:200-8. <https://doi.org/10.51847/fJsvCi3hgV>
Leila Moussa, Dana Farouk, Department of Nursing Leadership, Faculty of Health Sciences, University of Antwerp, Antwerp, Belgium

2024

Adrian Williams. The Significance, Methodologies of Tumor Pathology and its Role to Fight Against Cancer Pathogens. *Journal of Medical and Surgical Pathology*. DOI: 10.35248/2472-4971.24.9.292
Adrian Williams, Department of Pathology, University of Antwerp, Antwerpen, Belgium

Marshall Burke. Thermal Pollution: A Significant Environmental Issue from Alteration of Water and Temperatures. *Journal of Pollution Effects & Control*. DOI: 10.35248/2375-4397.24.12.397
Marshall Burke, Department of Environmental Pollution, University of Antwerp, Antwerpen, Belgium

2023

James Ronald. Cervical Cancer Diagnosis: Early Detection and Screening. *Research Journal of Oncology*. DOI: 10.36648/iprjo-7.3.30
James Ronald, Department of Oncology, Antwerpen University, Belgium

William John. Evaluation of Acute Kidney Damage. *Journal of Clinical & Experimental Nephrology*. DOI: 10.36648/2472-5056.8.1.184
William John, Department of Anesthesiology, University of Antwerp, Antwerp, Belgium

Hinata Jinn. Renal Papillary Putrefaction Related with Normocalcemic Essential Hyperparathyroidism. *Journal of Clinical & Experimental Nephrology*. DOI: 10.36648/2472-5056.8.6.223
Hinata Jinn, Department of Diabetics, University Hospital Antwerp, Edegem, Belgium

Kristel Deyn. Types of Screening Tests for Fragile X Syndrome. *Journal of Down Syndrome & Chromosome Abnormalities*. DOI: 10.35248/2472-1115.23.09.231
Kristel Deyn, Department of Medical Genetics, University of Antwerp, Antwerp, Belgium

Ebrahim Vafaei. Cutting-Edge Resuscitation Techniques in Trauma: Advancements and Challenges. *J Trauma Crit Care*. DOI: 10.35841/aatcc-7.4.163
Ebrahim Vafaei, Department of Chemistry, University of Antwerp, Groenenborgerlaan 171, 2020 Antwerpen, Belgium

2022

Michiels Jackson. Prognosis and Treatment of Haematologic Disorders. *Journal of Hematology & Thromboembolic Diseases*. DOI: 10.352481/2329-8790.22.10.477.
Michiels Jackson, Department of Hematology, Antwerp University Hospital, Edegem, Belgium

Omer Bott. Prognostic Significance of Mitral Valve Prolapse. Clinical & Experimental Cardiology. DOI: 10.35248/2155-9880.22.13.735

Omer Bott, Department of Cardiac Surgery, Antwerp University Hospital, Antwerp, Belgium

Francis Baudouin. Recent Advancements in Sugar Beet Biotechnology and Perspectives for the Future. Journal of Nutrition & Food Sciences. DOI: 10.35248/2155-9600.22.12.1000887

Francis Baudouin, Department of Nutritional Education, University of Antwerp, Belgium

In addition, the following papers are not the work of the mentioned researchers and are therefore fake:

2021

Martine K.F. Docx. Pediatric idiopathic intracranial hypertension: Pitfalls in diagnosis and management.. British Journal of Research. /

Martine K.F. Docx, Department of Pediatrics Queen Paola Children's Hospital Antwerp

Martine K.F. Docx. Enormous recidive two-sided inguinal hernias in a tetrasomy 12p confusion.. Advances in Cancer Prevention. /

Martine K.F. Docx, Department of Paediatrics Queen Paola Children's Hospital Antwerp

Martine K.F. Docx. In a tetrasomy 12p condition, there are massive recidive two-sided inguinal hernias. British Journal of Research. /

Martine K.F. Docx, Department of Paediatrics Queen Paola Children's Hospital Antwerp
