

Composition of the Ethical Committee for Animal Testing UAntwerpen 2018-2022
(amendment 20.04.2021)

EXECUTIVE COMMITTEE

Chris Van Ginneken, chair

Expert responsible for the surveillance of animal health and welfare

Department of Veterinary Sciences

Research group: Applied veterinary morphology

chris.vanginneken@uantwerpen.be

Expertise: ethics, animal health and welfare, research techniques, experimental design

Dries Knapen, vice chair

Department of Veterinary Sciences

Research group: Veterinary physiology and biochemistry

dries.knapen@uantwerpen.be

Expertise: alternative methods for animal testing, research techniques, experimental design, statistical analysis

Van Dam Debby, academic secretary

Department of Biomedical Sciences, Institute Born-Bunge

Research group: Neurochemistry and behaviour

debby.vandam@uantwerpen.be

Expertise: animal health and welfare, research techniques, experimental design, statistical analysis

MEMBERS

Guido De Meyer

Department of Pharmaceutical Sciences

Research group: Physiopharmacology (PHYSPHAR)

guido.demeyer@uantwerpen.be

Expertise: research techniques, experimental design, statistical analysis

Marc Demolder

Department of Pharmaceutical Sciences

Research group: Physiopharmacology (PHYSPHAR)

marc.demolder@uantwerpen.be

Expertise: ethics, alternative methods for animal testing, animal health and welfare, research techniques, experimental design

Kristof Deseure

Department of Algology

Research group: Antwerp Surgical Training, Anatomy and Research Centre (ASTARC)

kristof.deseure@uantwerpen.be

Expertise: animal health and welfare, research techniques, experimental design, statistical analysis

Christel Jacobs

Expert responsible for the surveillance of animal health and welfare

Manager central animalarium

christel.jacobs@uantwerpen.be

Expertise: animal health and welfare

Wendt Müller

Departement of Biology

Research group: Behavioural Ecology & Ecophysiology

wendt.mueller@uantwerpen.be

Expertise: animal health and welfare, research techniques, experimental design

Patrick Rüdelsheim

Perseus BVBA

Expert biosafety

patrick.rudelsheim@perseus.eu

Expertise: ethics, animal health and welfare, experimental design

Annemieke Smet

Department of Gastroenterology and Hepatology

Research group: Laboratory Experimental Medicine and Pediatrics (LEMP)

annemieke.smet@uantwerpen.be

Expertise: research techniques, experimental design, statistical analysis

Jean-Pierre Timmermans

Department of Veterinary Sciences

Research group: Laboratory of cell biology and histology

jean-pierre.timmermans@uantwerpen.be

Expertise: alternative methods for animal testing, research techniques, experimental design

Dirk Ysebaert

Department of Hepatobiliary, Transplantation and Endocrine Surgery

Research group: Antwerp Surgical Training, Anatomy and Research Centre (ASTARC)

dirk.ysebaert@uantwerpen.be; dirk.ysebaert@uza.be

Expertise: ethics, research techniques, experimental design

Stephan Missault (as of May 2020)

Departement Biomedische Wetenschappen

Stephan.Missault@uantwerpen.be

Expertise: animal health and welfare, research techniques, experimental design, statistical analysis

Kristien Hens (as of June 2021)

Department of Philosophy

Kristien.Hens@uantwerpen.be

Expertise: ethics

OBSERVERS

Emma Goemaere
Administrative secretary
