

Flow category for homoclinic points

Louis Van Gaelen
(UAntwerpen)

Wednesday, May 7, 2025
16:00-17:00h on campus in M.G.004
Analysis & Geometry Seminar, Antwerpen

The aim of this talk is to define and explain the flow category, originally introduced by Cohen & Jones & Segal in the framework of Morse theory, for homoclinic points of a symplectomorphism in dimension two.
