Theme: risk & resilience

From the survey (30)

Speaking: csys

services and connections + increased capacity
on existing connections and higher frequencies for services
Despite Covid19, a **100% operational** port at all times
the necessary preparations to be **Brexit proof**
esting in the **future**: the port authority has invested
ce as much in port infrastructure
ong **rail** ambition and rise in **estuary** shipping
gest on-shore **windpark** on 1 industrial site, a complete
fully operational **5G** network and the **greenest** tugboat
in Europe

Supply chains in the post-Brexit era

A presentation slide for the Antwerp Management School. On the right side is a portrait of Tom Van Woensel, a bald man in a light-colored suit jacket over a blue and white checkered shirt. To the left of the portrait is a bulleted list of his qualifications and roles:

- BSc and MSc Applied Economics from the University of Antwerp
- PhD January 2003 from the University of Antwerp
- Full Professor at the Eindhoven University of Technology (The Netherlands)
 - Director of the European Supply Chain Forum
- Full Professor at the Antwerp Management School
 - Academic Director Global Supply Chain Management program
- Research on Freight Transport and Logistics
- Teaching at BSc, MSc, PostMSc, PhD and Executive level

At the bottom left of the slide is the Antwerp Management School logo, consisting of the letters 'AMC' in a stylized font, followed by the text 'Antwerp Management School'. The Dell logo is visible on the bottom bezel of the monitor.

resilience:

“[t]he capacity of a dynamic system to adapt successfully to challenges that threaten the function, survival, or future development of the system.”

—Ann Masten, Professor, University of Minnesota
College of Education and Human Development

Supply Chains in the post- COVID19 era: towards more resilience
