

dr Shangkun Li (P.R. China) obtained his MSc in Chemical Engineering in 2020 from Dalian University of Technology (China). He did his PhD degree in our from from 2020 to 2024, studying plasma-catalytic CH₄ conversion by experiments and modelling. Now he is working as joint postdoc with CMT (supervisor: B. Partoens) on our Methusalem project, studying plasma catalysis by DFT modelling.
