

## HPV TEST RESULT

Dear

You sent us a sample for detecting the HPV virus.

We have **good news**. We have found **no** carcinogenic types of the virus (high-risk HPV types) in your sample. So you don't have to do anything else.

We have also sent the result of the trial to your GP.

### Do you have a question?

- Email [info@bevolkingsonderzoek.be](mailto:info@bevolkingsonderzoek.be).
- Call free on **0800 60 160** (9-12am and 1-4pm).

At [www.ScreenUrSelf.be](http://www.ScreenUrSelf.be) you will find a translation into French, English, Turkish, Arabic, Polish, Romanian and Russian of this letter.

With best regards,

A handwritten signature in black ink, appearing to read 'P. Van Damme', written over a light blue circular stamp.

**Prof. Dr. Pierre Van Damme**

Principal investigator of the ScreenUrSelf trial, Antwerp University
