After having studied at IOB, you returned to the Philippines or discovered new horizons elsewhere, where you - hopefully - have been able to use some of the new insights and knowledge you acquired during your study at IOB. We would like to keep in touch with you and learn about the interesting work you have been doing.

On the 5th of December 2014 IOB and NEDA jointly organise a seminar to celebrate 15 years of Filipino alumni at IOB. Several alumni, PhD students, staff or other Filipino researchers can present their academic or policy-oriented research.

There will be several presentation slots of 40 minutes (20 min presentation + 20 min of discussion) to present your academic or policy oriented research papers. No strict thematic focus is required. An abstract (max ½ page) and preferably also a finalised paper should be sent to sara.dewachter@uantwerpen.be **BEFORE 1st of NOVEMBER 2014**. The selection results will be made available on the 05/11/2014.
