Event description

The Tempus Public Foundation – project leader of CroCooS project – is going to hold **the Final Conference of CroCooS**. The three-days high-level conference focuses both on reflections and policy recommendation of the project and also the piloting phase with full of schools' stories and best practices which will be delivered by the pilot actors – mentors, schools and teachers. The general aim of the **CroCooS project (Cross-sectoral cooperation focused solutions for preventing early school leaving)** is to contribute to the specification and to the applicability of a comprehensive early warning system in the European countries.

The **Final Conference of CroCooS** is a **multi-national high-level conference** with participants from the policy and research level with early school leaving (ESL) experts arriving from around Europe and also the practical level with schools and pilot supporting staff.

The working language is **English** (with Hungarian, Serbian and Slovenian translators provided).

Date: **19-21 April 2017**

Venue: **Mercure Hotel Buda | Budapest, Hungary**

Keywords: ESL (ELET), dropout, dropout prevention, early warning system, teachers teams, cross-sectoral cooperation, development of institutions (schools), introducing the change in the schools

Background and further information

The **CroCoos – Cross-sectoral cooperation focused solutions for preventing early school leaving** – focuses on the prevention and early intervention levels of reducing early school leaving (ESL) with special focus on early warning systems (EWS). The general aim of the **CroCoos** project is to contribute to the specification and to the applicability of a comprehensive institutional early warning system for preventing early school leaving.

The project results, concept and 4-language materials could be found clicking on this link: www.crocoos.tka.hu

CroCoos – Prevent dropout! project is implemented in the framework of the EC proposal “Implementation of the European strategic objectives in education and training” (EACEA/04/13) under the Lifelong Learning Programme which target is to support innovative policy solutions to reduce and prevent early leaving from education and training (ELET).
