 - Postgraduaat Transport en Maritiem Recht
- Advanced Master programmes in English:
 - TRANSPORTNET
 - Ph.D.

GUEST PROFESSORS³

- Prof. Trevor Heaven (University of British Columbia)
- Prof. Moshe Ben-Akiva (Massachusetts Institute of Technology, MIT)
- Prof. José Viegas and Prof. Rosário Macário (Technical University of Lisboa)
- Prof. Enrico Musso (University of Genova)
- Prof. Costas Grammenos (Centre for Shipping, Trade and Finance, UK)
- Prof. Roger Vickerman (University of Kent)
- Prof. Siri Strandenes (NHH Norway)
- Prof. Lynn Fish (Canisius College)
- Prof. Antonio Estache (Université Libre de Bruxelles)
- Dr. Elisabeth Gouvernal (INRETS)
- Dr. Eva Molnar (UNECE)
- Prof. Martin Dresner (University of Maryland)

RESEARCH

- Individual research
- Research projects
 - Fundamental research
 - Third-party research
 - Limited assignments intended for immediate application
- Valorisation: e.g. publications, congresses,...

RESEARCH THEMES

- Maritime / Ports
- Air transport (passenger + freight)
- Land transport (road, rail, inland navigation, pipelines; passenger + freight)
- Mode choice
- Logistics / cost-benefit
- Regional-economic dimension

RESEARCH THEMES (ctd.)

- Flemish Policy Research Centre
 - Commodity and Passenger Flows
 - Seaports
 - Airports
 - City Logistics
 - Logistics chains
 - Commuting

RESEARCH IN AIR TRANSPORT

- Analysis of Boeing-database
- Low cost airline market policy (EUP)
- Air Crisis (EUP + DG MOVE)
- Ground handling services (Belgian Fed. Gov.)
- Airport market regulation (Belgian Fed. Gov.)
- Airline website compliance with EU law (EUP)
- Education and skills in air transport (EDUCAIR)
- Impact of airport shutdown (Research Centre)
- Competition air/rail (Research Centre)
- Level Playing Field (Research Centre)
- Cooperation between airports (Research Centre)

RESEARCH IN AIR TRANSPORT

- Brussels Airport freight + incentive strategy
- Ostend airport market strategy
- Balance passenger / freight (Research Centre)
- Air cargo security (EUP)
- Airport accessibility analysis (HERMES)
- Airport selection for freighter operations (defended PhD)
- Cost structure and strategies of integrators (defended PhD)
- Strategies of air freight carriers (PhD)
- Airport infrastructure financing (PhD)
- Airport Business Models (PhD)

RESEARCH IN AIR TRANSPORT

- Brussels Airport freight + incentive strategy
- Ostend airport market strategy
- Balance passenger / freight (Research Centre)
- Air cargo security (EUP)
- Airport accessibility analysis (HERMES)
- Airport selection for freighter operations (defended PhD)
- Cost structure and strategies of integrators (defended PhD)
- Strategies of air freight carriers (PhD)
- Airport Business Models (PhD)

- TRANSPORTNET (co-operation agreement between 8 European transport universities)
 - Ecole Polytechnique Fédérale de Lausanne
 - Institut für Wirtschaftsforschung (Karlsruhe)
 - Laboratoire d'Economie des Transports (Lyon)
 - Technical University of Lisbon
 - TU Delft
 - University of Antwerp
 - University of Genova
 - University of the Aegean
 - Education and research

TransportNET¹¹ – Air Transport Economics

Economics

TransportNET *Air Transport Economics*

The course will be held at the University of Antwerp (UA) Belgium from 3-6 December 2012 (room C-101)
