April 27, 2017

Dear Prof. van Aert,

After a careful consideration of all nominations, the independent committee of the

Ernst Ruska Prize 2017

has decided to share this year's prize between two awardees. It is a big pleasure for me to notify you officially that in the category "Physical Sciences" you will be awarded the prize for your outstanding achievements on

New Techniques for Optimum Quantitative Analysis of Electron Microscopy Data.

The Ernst Ruska Prize 2017 consists of the prize money, a certificate, and a lecture of the awardee at MC2017 in Lausanne in honor of Ernst Ruska (Ernst-Ruska Distinguished Lecture).

I offer you, Prof. van Aert, my sincere congratulations on winning the Ernst Ruska Prize 2017!

Yours sincerely,

(Prof. Dr. Michael Lehmann / President)
