INIST

Institute for Scientific and Technical Information
A CNRS institute serving RESEARCH
www.inist.fr

Where is INIST-CNRS located?

www.cnrs.fr

Near Nancy and its Place Stanislas

www.cnrs.fr

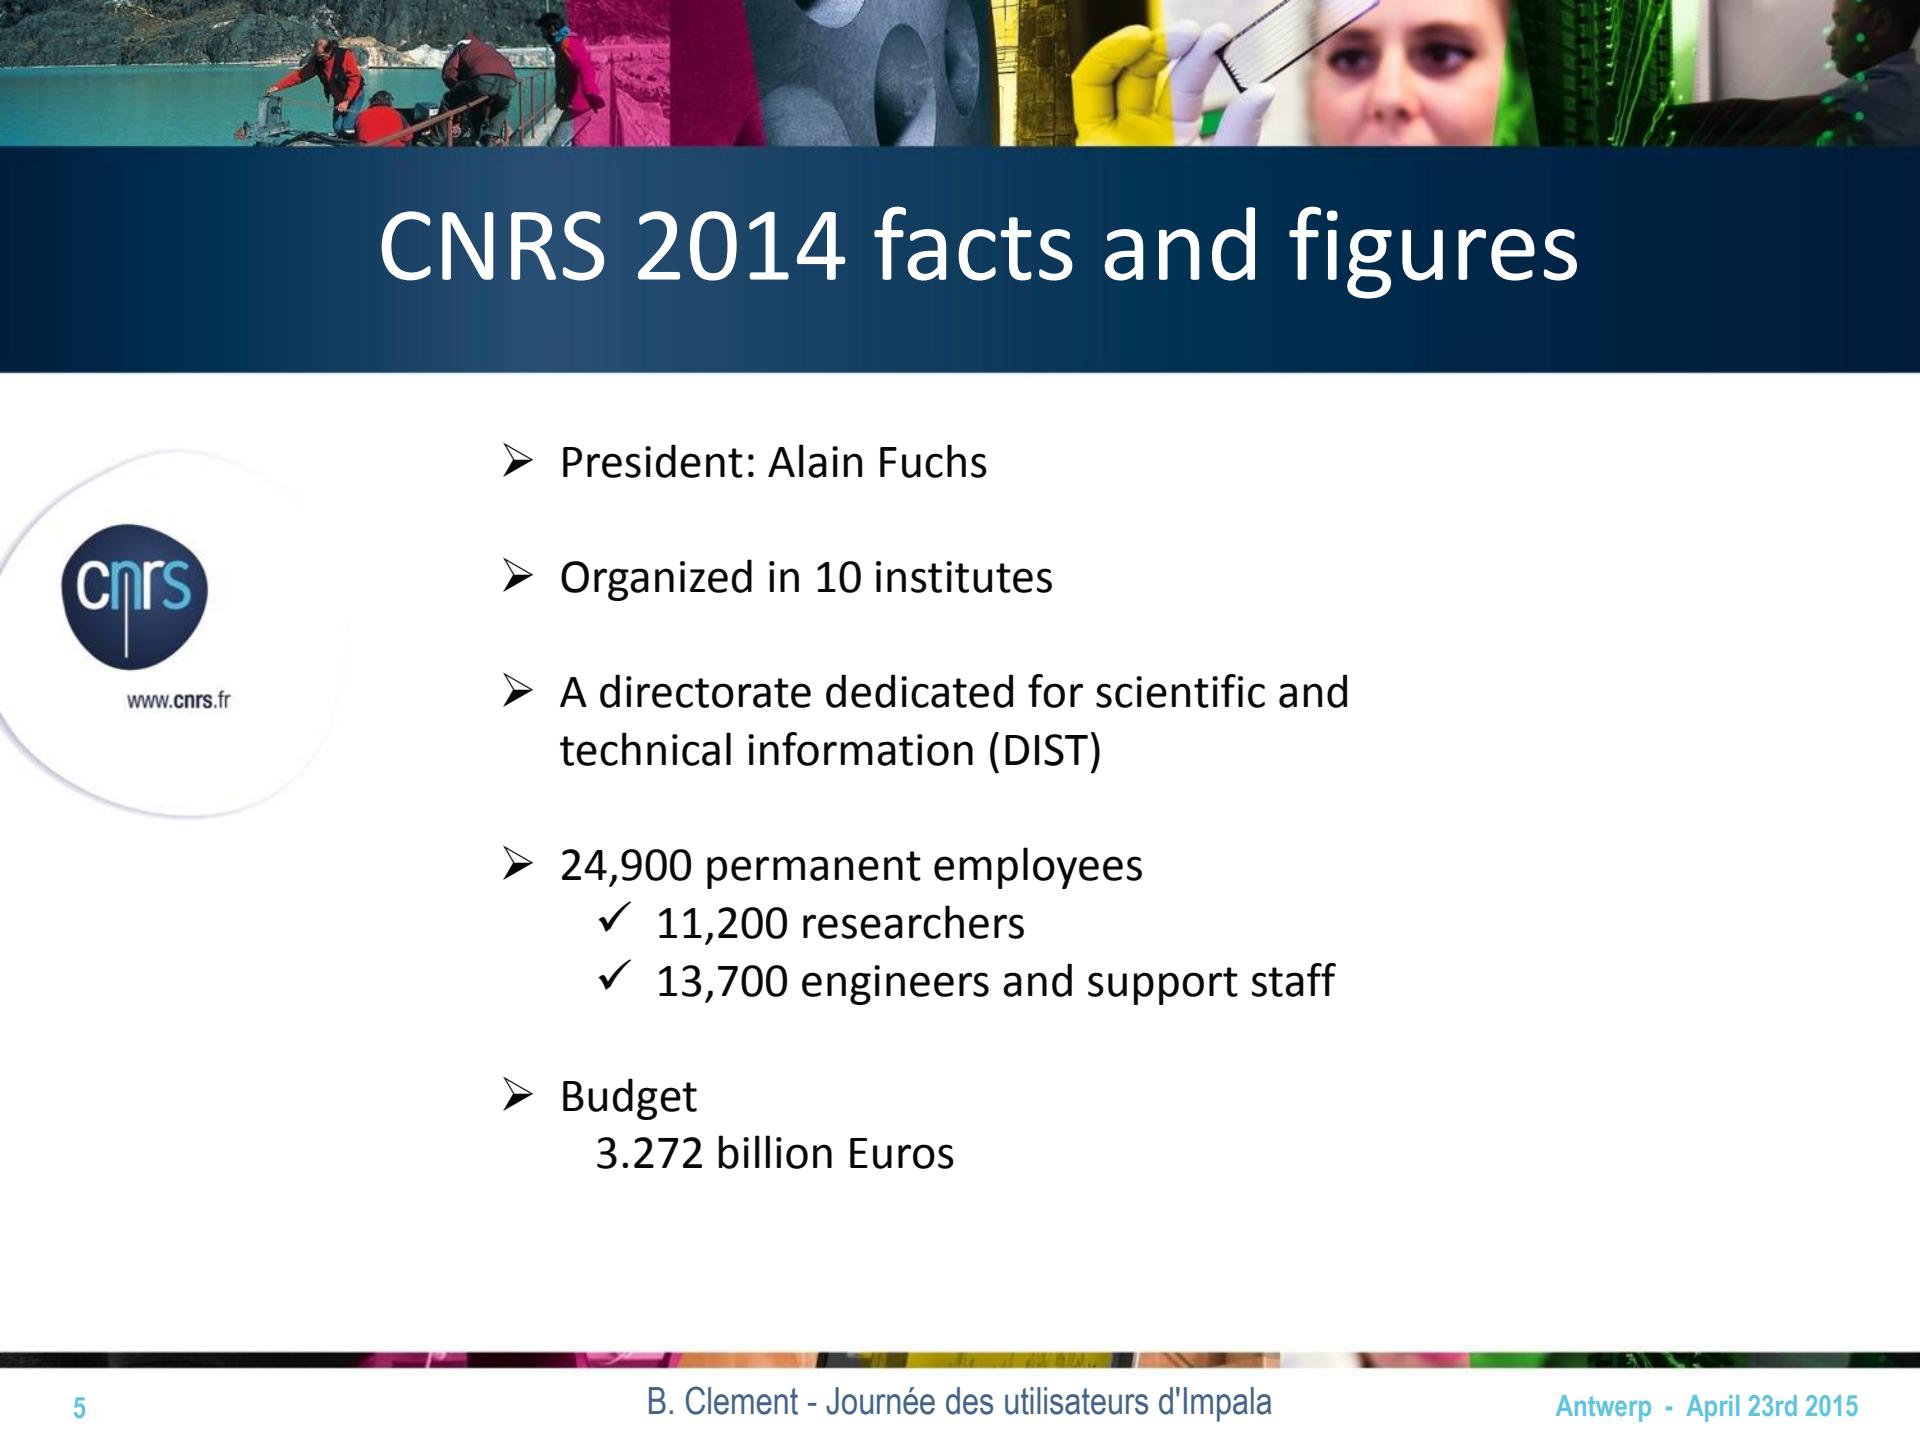

CNRS

The French National Centre for Scientific Research

www.cnrs.fr

- A public research organization under the responsibility of the French Ministry of higher education and research
- The biggest research organization in France
- Mission : Produce knowledge and make it available to society
- A multidisciplinary institution; it covers all scientific disciplines

CNRS 2014 facts and figures

- President: Alain Fuchs
- Organized in 10 institutes
- A directorate dedicated for scientific and technical information (DIST)
- 24,900 permanent employees
 - ✓ 11,200 researchers
 - ✓ 13,700 engineers and support staff
- Budget
3.272 billion Euros

INIST Overview

www.cnrs.fr

- Created in 1988
- Building designed by Jean Nouvel
- Staff in 2015: 210
- Director: Raymond Bérard

INIST Mission and activities

Cooperation with other STI actors in HER

www.cnrs.fr

Increasing the visibility
of the French scientific
production
internationally and
providing access to
international scientific
literature to French
researchers

- Portals
- Document delivery**
- Terminology, ontologies
- Research data
- Acquisitions and negotiations
- Metrics
- Translation
- Training

Within a national framework

www.cnrs.fr

- CNRS: *A better sharing of knowledge: an open policy for Scientific and Technical Information of the future*
<http://www.cnrs.fr/dist/z-outils/documents/STRATEGY.pdf>
- INIST: runs or co-runs 14 national action plans

From

Massive information production

To

User-driven services

What about our library?

www.cnrs.fr

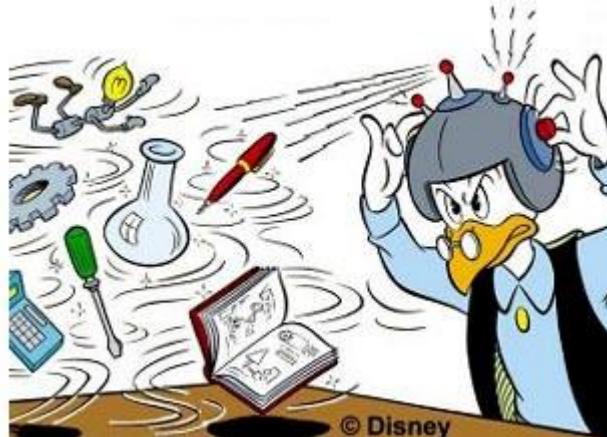

- Our collection: science, technology, medicine, social sciences, humanities
- One of the biggest collections in Europe
- 22 kilometers of shelves
- 26,000 print journals and 6,000 electronic journals
- 60,000 scientific reports
- 62,000 conf. proceedings
- 110,000 dissertations
- 10,000 monographs

Users

www.cnrs.fr

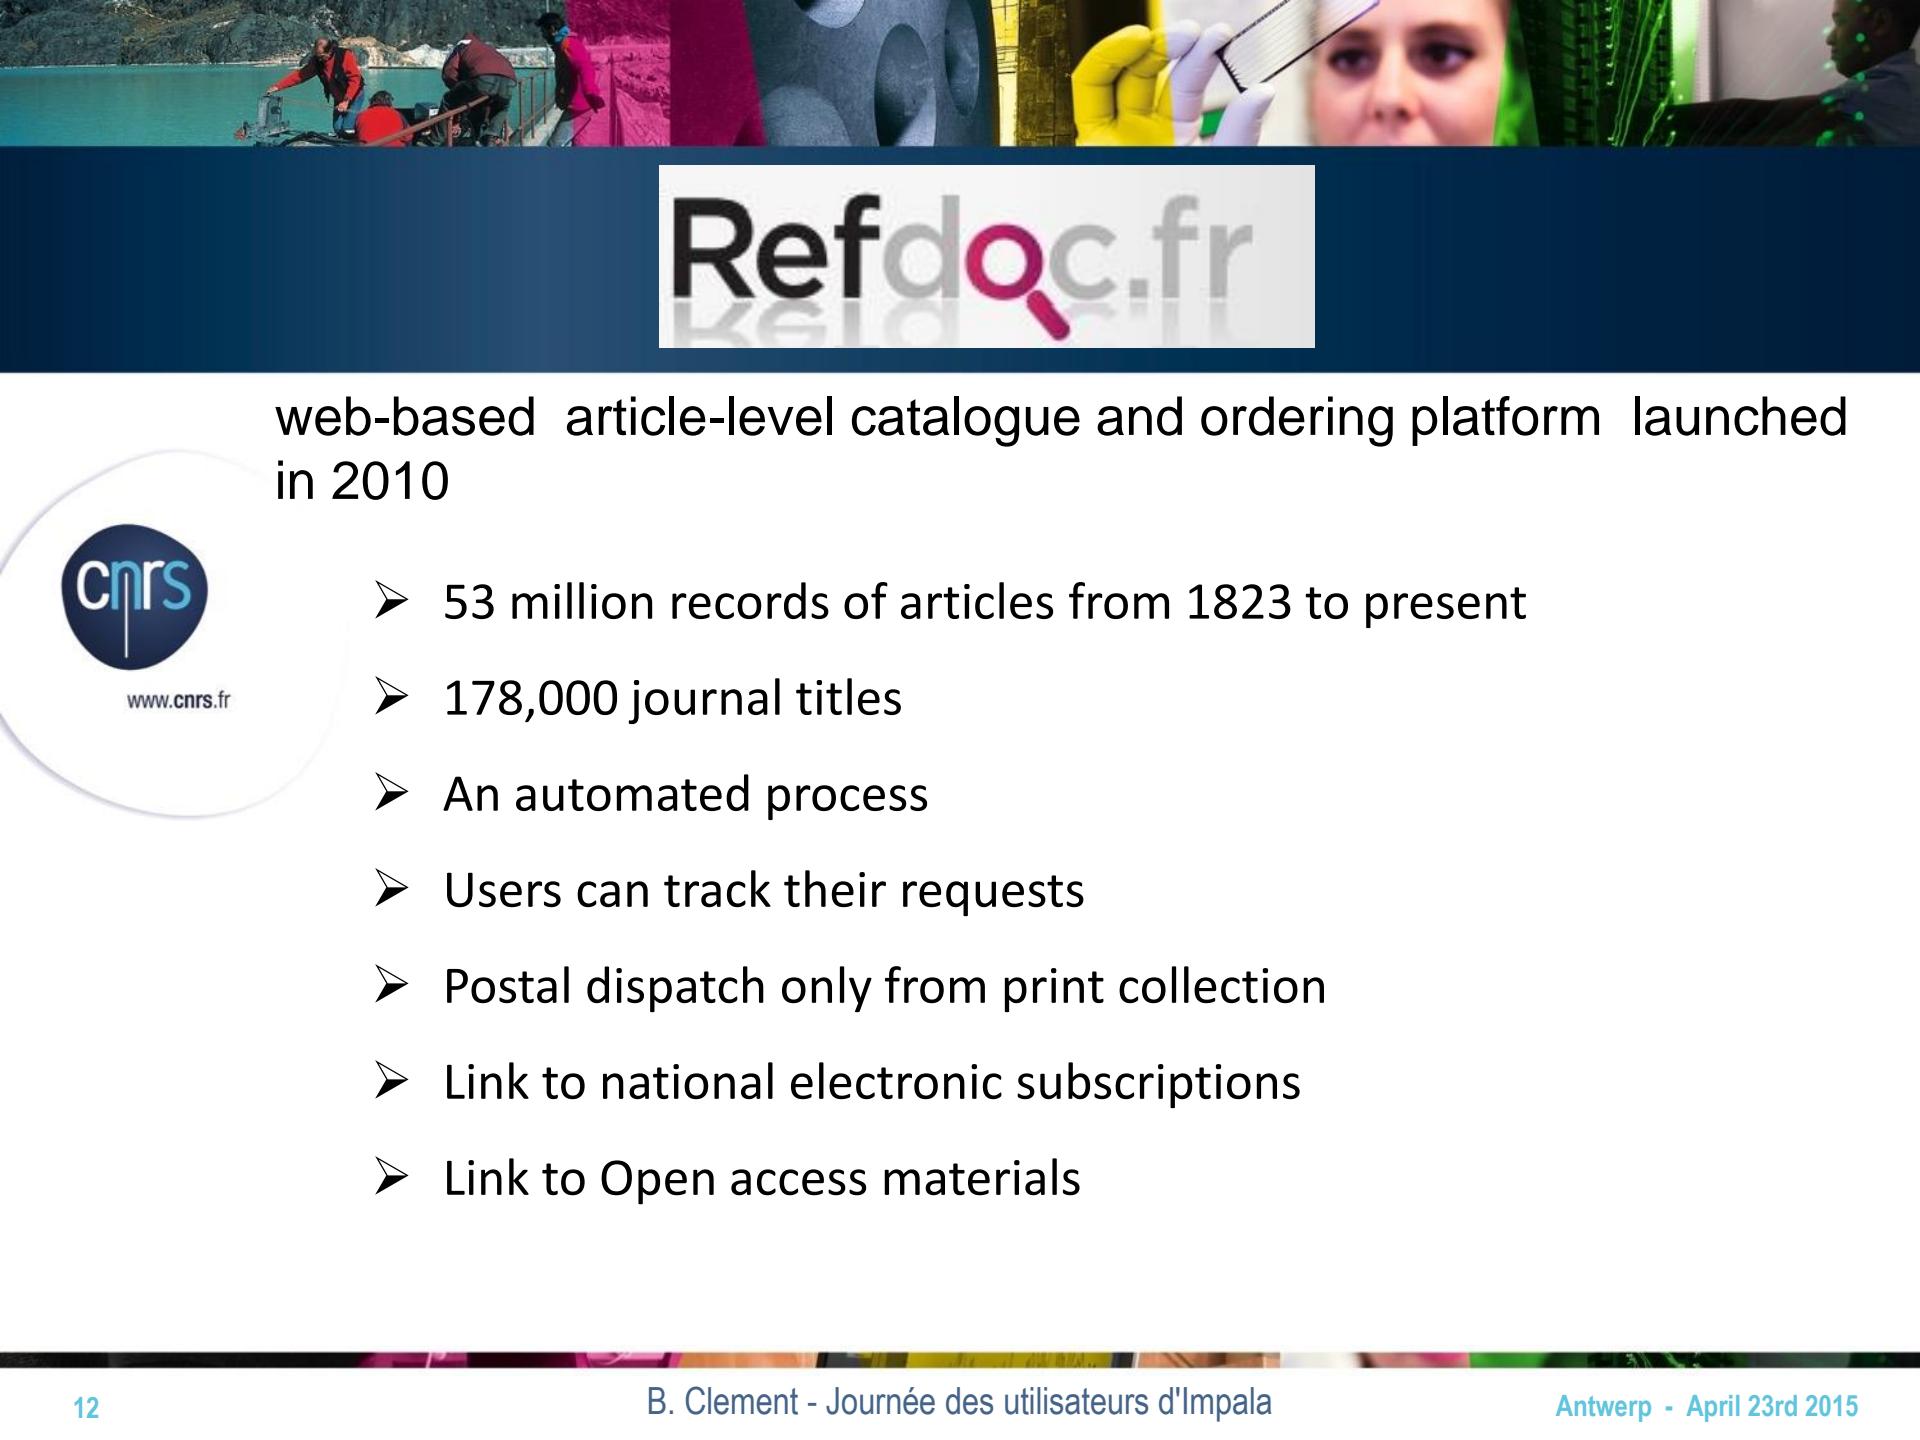

What we do for them

www.cnrs.fr

- Dedicated portals (national licensing programs)
- ISTEX (national digital archive)
- CollEx (national aggregation and preservation of scientific heritage print collections)
- Docdel from our print holdings and other resources (“long tail”) as an added-value service

web-based article-level catalogue and ordering platform launched in 2010

www.cnrs.fr

- 53 million records of articles from 1823 to present
- 178,000 journal titles
- An automated process
- Users can track their requests
- Postal dispatch only from print collection
- Link to national electronic subscriptions
- Link to Open access materials

Current services

- CNRS users: totally free (even © paid by INIST for user)
- HER users: special fee

Our legal background

www.cnrs.fr

- Based on new agreement with French copyright clearance center (CFC)
- Print only
- List of 28,000 publication titles for HER

A combination of factors

www.cnrs.fr

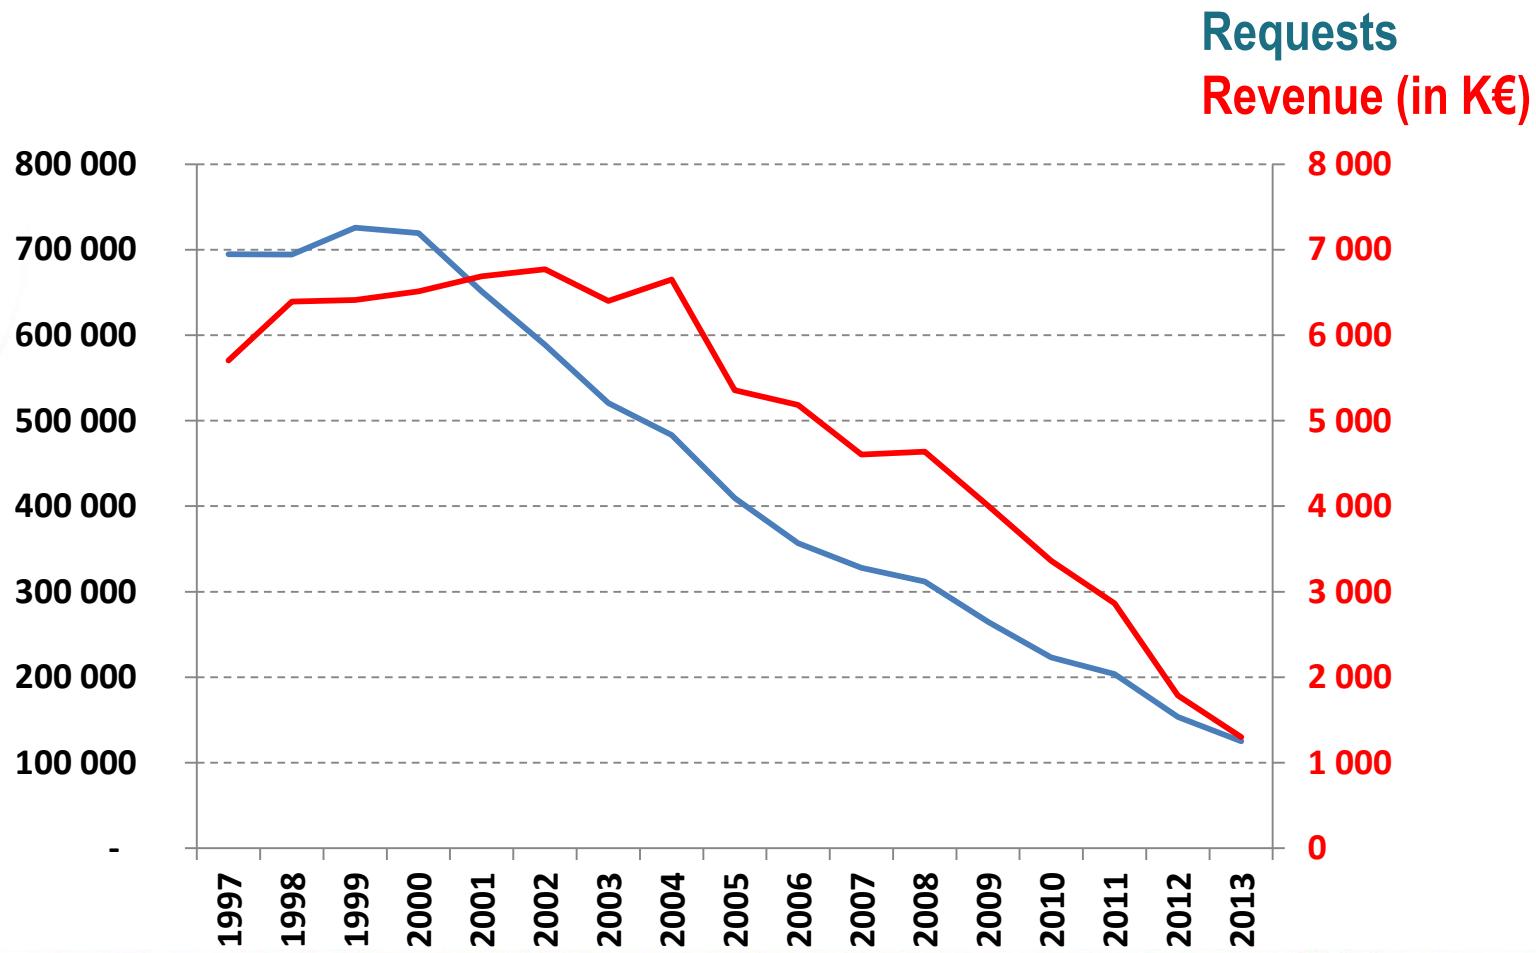

- Our case in global trends in docdel demand
- New national background for HER
- Legal issue : our Black Friday!

Legal issue: our Black Friday! A devastating court decision

Suit for copyright infringement won by an author

www.cnrs.fr

Document supply

Following the decision by the French Court of Cassation on December 11th 2013, our document supply services has been suspended.

However you may consult the 53 million bibliographic records in our Refdoc catalogue and access full text versions of articles flagged as being available in open access from the HAL, Persée or Revues.org repositories.

For further information, please contact: contact-utilisateur@inist.fr

Dec 13, 2013: RefDoc suspended!

www.cnrs.fr

- Court ruling: No implicit authorization for online distribution of works, even if distributor automatically pays copyright fees. Distribution only possible based on explicit authorization.
- Interpretation of the French intellectual property legislation by the courts
- Now, fee based distribution is based on a list of journals (around 28000) whose authors explicitly give authorization for the distribution of their works (new contract between CNRS and the French copyright clearance center - CFC)

Impact & new challenges

www.cnrs.fr

- Staff: journal weeding, training (new formats, Refdoc back office cleaning), be prepared for curation, immersion plan
- Goal of stabililizing orders and maintaining quality
- What about back up libraries?

What's next in 2015?... and beyond?

www.cnrs.fr

- Legal harmonization of practices in HE libraries
- Extend Open RefDoc
- Document delivery from digital collections
- Broaden service to international publicly-funded institutions (contact-utilisateur@inist.fr)
- ***rethinkingresourcesharing.org***
- Free provision on reciprocity?

www.cnrs.fr

Thank you!
