# Mission, Goal & Objectives

## **1. Mission:**

Generate, multiply and disseminate relevant information on HPV to a broad array of stakeholders.

## **2. Goal:**

Contribute to the control of HPV infection and to the prevention and screening of HPV related cancers.

## **3. Objectives:**

Providing evidence based guidance on key technical and strategic issues.

Monitoring the progress of HPV control programs at the country and regional levels.

## Technical Meeting

### Challenges in the HPV Screening Landscape, Triage of Screening Positive Samples, and Screening in the Era of Vaccination

27 – 28 August 2020  
Antwerp, Belgium

## BACKGROUND DOCUMENT DRAFT

Meeting participants may provide input/comments

*Dur-e-Nayab Waheed and Alex Vorsters*  
**HPV Prevention & Control Board**

Technical Meeting  
Challenges in the HPV Screening Landscape,  
Triage of Screening Positive Samples,  
and Screening in the Era of Vaccination.

27-28 August 2020

ANTWERP, BELGIUM

HPV Prevention  
and Control Board

[www.hpvboard.org](http://www.hpvboard.org)

# *Meeting objectives:*

- Landscape of HPV Screening
  - Discuss barriers to adoption and implementation of HPV testing
  - Review quality, validation and availability of HPV tests
  - Provide country examples of successful implementation of HPV testing
  - Discuss if we have enough options and supply needed for the global cervical cancer elimination
  - Review HPV screening and treatment challenges in different regions
  - Review challenges and opportunities to offer a complete system, from screening to treatment, in LMIC
  - Discuss the existing networks that support implementation of cervical cancer screening programs in LMICs.
- Triage: what are the best options.
  - Review current available triage, treatment and management algorithms
  - Discuss what are the best options for different situations
  - Review challenges and future opportunities
- Integration of Vaccination and Screening : How to organize cervical cancer screening in the era of vaccination (Keynote Lecture)
- Impact of COVID-19 on cervical cancer screening programs
