Task

Find 4 other people with whom you will work together

Read the description of a challenge your group has received

Discuss in groups whether (and if so, how) this challenge is present in your work.

Has this challenge been addressed? If so, how?

What other solutions you can think of?

What pros/cons are for each of the solutions?

Write down solutions (and their +/- on a sheet of paper!)

Move on to the next challenge!

Share your insights with others!
